

Chapter 10: Accessibility

Providing ADA Accessibility to OPD Parks and programs is a high priority of the Park District. Future plans to renovate parks will include improvements to increase ADA access and support ADA accessible programs. An ADA Audit was conducted during the Master Plan process for Architectural Compliance, Site Accessibility, and ADA facilities. The ADA Transition Plan, Master Plan, and the Capital Improvement Plans will support and implement improvements for accessibility.

The results from the 2008 Recreation Needs Assessment Survey regarding concerns or demand for more ADA facilities and programs shown to the right.

Do you feel that the Park District needs to offer more programs for Americans with Disabilities?

Do you believe the Park District needs more park facilities for Americans with Disabilities?
